Re: Certification Letter – Federal Transit Administration – Buy America

Dear Valued Customer:

America is known for its long history of manufacturing excellence. That tradition continues with Mission Solar Energy LLC (“Mission Solar”).

Mission Solar proudly certifies that it manufactures its M10 photovoltaic modules (the “Modules”) at its facilities located in San Antonio, Texas. The Modules contain both U.S. and foreign parts and materials. The Modules each meet the requirements of the Federal Transit Administration Buy America statute and implementing regulations if directly incorporated as a **component** into a manufactured end product or if used as a **subcomponent** in a manufactured end product. See 49 U.S.C. § 5323(j); 49 C.F.R. § 661.1 *et seq.*

Sincerely,

Lance Wilson

Sr. Director of Marketing and Commercial Operations

8303 S. New Braunfels Ave.

San Antonio, Texas 78235
